NOV 1 4 2002

Date:
Patent No: 6,434,223
Issued: August 13, 2002
Title: TELEPHONE INTERFACE CALL
                PROCESSING SYSTEM WITH CALL
                SELECTIVITY
Inventor(s): Ronald A. Katz
Docket No.:

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction in the above-identified patent under the provision of Rule 1.322 or 1.323.

Respecting the alleged errors, comparison of the patent on the title page item [56], Under U.S. Patent Documents second column, with the corresponding location in the application file reveals that there is no discrepancy. Changes to claim dependencies change to the scope of the claims and do not correct typographical errors on the part of the patent office. Therefore, no correction(s) is in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323.

In view of the foregoing, your request is hereby denied.

A certificate of correction will be issued to correct the remaining errors noted in your request.

Further correspondence concerning this matter, should be filed and directed to.
